

Green Field Control System (I) Pvt. Ltd.

Green Motion

Introducing the future of Automobile Industries
Controllers for E- Vehicles

Technical Features:

Controller Category: Brushless Direct Current

24 MOSFET (Tube) Controller

Rated Voltage: 48 V

Rated Power: 200-1500W

Application Model: Electric Bicycle,
Electric Scooter
Electric Vehicle

Low Voltage & Over Current Protection

Provision for I/O of Brake
Speedometer
Accelerator

Backward/Reverse - Usually 50% of forward speed
Can make the Ratio as per Customer's request

Cruising Control

We can make this Controller totally as per
Customer's Application

Smart Regeneration option Available

Green Field – The Team,
Transforming the Ideas in to Reality
100% in house Research and development and Production
